pmorris@sju or swacker@sju.edu.

Instruction provided by SJU Staff Coaches, former/current professional players, other college coaches and college players emphasizing the importance of technique through individual skills and small sided play. Campers will learn the proper fundamentals in a structured training environment. The camp curriculum will progress from repetition drills with no pressure to more difficult game situations with defensive pressure. We want the campers to have fun, however, the main focus is teaching the individual skills and techniques needed to become better soccer players.
